Subject: Microsoft Settlement

To Whom It May Concern:

I am opposed to Microsoft antitrust settlement proposal. After reading the proposal, it is readily apparent that the provisions do not fully address the well-documented past practices of Microsoft; there are no means of redress for those aggrieved.

The proposal simply prohibits Microsoft from executing its predatory practices; this is the antithesis to justice! Please address compensation/repatriation for those who have been wronged by the illegal and preadatory practices of Microsoft.

I fear that the EU will be much more harsh in its assessment of MS practices, and the current DOJ settlement will pale in comparison. What will it say about the effectiveness and impartiality of the USDoJ?
